Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	•Encounters a hard code error. •Gets stuck on a logic concept. •Stops learning temporarily.	•Searches online for a fix. • Fails to find a good answer. • Types a query in the support chat.	• Submits the query to the engine. • Receives instant smart hints. • Resumes the learning course.
Touchpoint <i>What part of the service do they interact with?</i>	• LMS course video page. • Code editor workspace. • Platform dashboard.	• Help desk support page. • Query input text box. • Discussion forum window.	• "Wow, it understands my problem!" • "This explanation helps a lot." • "I can easily finish this now."
Customer Thought <i>What is the customer thinking?</i>	• "This code is too difficult." • "I don't understand this." • "Should I quit this topic?"	• "I need immediate help." • "Will anyone reply to me?" • "How do I explain my bug?"	• "Wow, it understands my problem!" • "This explanation helps a lot." • "I can easily finish this now."

Customer Feeling <i>What is the customer feeling?</i>	• Frustrated • Confused • Stuck	• Anxious • Lost • Hesitant	• Relieved • Valued • Motivated
Process Ownership <i>Who is in the lead on this?</i>	• Content Creators • UI/UX Designers • Platform Developers	• Customer Support • Teaching Assistants • System Admins	• Core AI/ML Dev Team • NLP Engineer Specialists • Academic Mentors
Opportunities <i>How can we improve this stage?</i>	• Detect long coding pauses • Flag difficult error messages. • Add pop-up micro-tips.	• Show warm, supportive text prompts. • Simplify the submission form. • Prioritize high-stress text.	• Build a mixed-emotion dashboard. • Auto-generate mentor alerts. • Track resolution speeds.
