

Project Initialization and Planning Phase

Date	05 JULY 2026
Team ID	SWTID-2026-2423
Project Name	Emotion Detection & Learning Support Engine
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An Educator / Teaching Assistant (TA)	Efficiently triage student queries and provide timely, empathetic guidance.	Manually guessing student context and sentiments from messages takes massive time.	Heavy workload slows down the response cycle, leaving struggling students waiting	Overwhelmed and anxious about missing critical student needs.
PS-2	A Self-Paced Learner / Student	Get quick clarification and emotional support when stuck on tough academic concepts.	Searching forums or drafting emails to mentors takes too long.	Independent learning lacks immediate, context-aware interaction when facing hurdles.	Frustrated, confused, and tempted to stop studying.
